## The Future of Technology Programs with Director, Mark Veljkov

Over the years, the general public has become familiar with the term “Moore’s Law.” Moore’s Law was named after Gordon Moore, the co-founder of Fairchild Semiconductor and Intel (they make the main chips in most of our computers). In 1965, Gordon Moore stated that, “the number of transistors in an integrated circuit doubles approximately every two years.” Since 1965, Moore’s Law has been remarketed to encompass not just computer chips but technology in general. After all, if the computer chips that run our computers double in power every 2 years, then it stands to reason that ALL technology doubles in power.

While not exactly accurate, this concept does market well. Regardless of the details

of Moore’s Law, one thing we all know is that technology changes, and often changes fast! In fact, by the time this blog is posted, more than a million technology changes have probably taken effect. Most of these we will never know much about; minor code changes, fixes, and feature enhancements.

Here at Bellevue College Continuing Education, we keep up with these changes – both minor and major. We are particularly focused on the major changes that, not only will impact our student’s career opportunities, but be of benefit to our local employers. Being concerned with, and observant of, technology changes is not enough for us. Our mission is to ensure that we offer relevant programs that teach the skills employers are looking for. Aligning our curriculum with employment requirements helps us bridge the gap between what we teach and what will get our students jobs.

### New Additions to Technology Programs

**MS SQL Database programs** – A new version of Microsoft’s flagship operational database, SQL Server 2017. This new edition of SQL Server has added Python, graph processing and runs on Linux. Look for SQL Server 2017 instructions coming in the fourth quarter of 2018 combined with our current Python program.

**Apple Development** – iOS Development is back. Yes, we are bringing iOS development back in an “intensive” format. This format will allow students to more rapidly complete the

program while receiving more instruction both in the classroom and online. Students will learn to develop apps for iPhones, iPads and Apple TV. By Spring Quarter 2018, we will be adding Apple’s ARKit development.

**Immersive Reality Technologies** – One of our most exciting new offerings is the growth of Immersive Reality technologies. These technologies include: Augmented Reality, Mixed Reality and Virtual Reality. We have already begun to offer the first step into this exciting world with courses in AR/VR HoloLens Development and Immersive Realities Design. Soon, we will be adding a course in Apple’s ARKit. If you are unfamiliar with Augmented Reality, for all the iPhone/iPad users, check out this IKEA video: <https://youtu.be/-xxOvsyNseY>.

**The Internet of Things** – To round out our new changes, we are excited to offer a course in the Internet of Things (IoT). Experts predict that there will be over 24 billion devices (sensors) installed by 2020. Imagine controlling all of your home or office heating and lighting from your phone, or having your refrigerator alert you to the fact that you need milk, or using your phone to diagnose a car problem before you take it in. You could walk into the mall and use your phone to find who has the best price on the clothes you were looking for, then order and pay for them before you get to the store. Many of us already use health monitoring devices like the Fitbit, or make payments using our phones. These are just a few ways IoT technology is, and will, impact our lives. A recent Google Jobs search showed over 700 jobs for people with IoT skills in the Seattle and Bellevue area.

The Computer and Technology program is always working to stay connected and informed on the latest technologies that impact our students and employers. Instructors are working professionals in the program areas they teach, and many of our students are actively engaged in the technology world. Every day they bring us new ideas, new directions, and new opportunities that keep us changing, growing, and better equipped to offer new and exciting programs for our students and community.

*Mark Veljkov,  
Director of Technology Solutions*

### New Python Programming Stack

Learn the language that is running things at Google, Amazon, Microsoft and other top companies. Python is designed to be easy to learn and fun to use. 10 Saturdays could lead you to a new career with higher pay.

Item W8383 \$1,395

10 Saturdays Jan 6 - March 17 8:00am- noon

**See page 12 in the schedule.**

*"I like the certifications available, especially since the requirements are centered on real-life skills, and instructors have hands-on experience. BC's reputation gives me confidence that the certificates will mean something."*

— Student of Murray Law's class,  
SQL Server Reporting

# EXCEED EXPECTATIONS

## TECHNOLOGY PROGRAMS

### COMPUTER BASICS

#### Windows 10 Introduction

Gain an understanding of the Windows desktop and file and folder management including layout, directory structure of disks, using applications, transferring data, using Windows accessories, customizing the desktop and adding shortcuts. See website for prerequisite information. Fee: \$259

Item W8303	C. Hanks	NORTH
2 sessions TTh	Jan 9 - Jan 11	8:00am - noon
Item W8356	C. Hanks	NORTH
3 sessions WTh	Mar 7 - Mar 14	6:00 - 8:40pm

### BUSINESS AND DESKTOP APPLICATIONS

#### Access 2016: Level 1

Gain a foundational understanding of Access including the skills necessary to create a new database, construct data tables, design forms and

reports, and create queries. See website for prerequisite information. Fee: \$259

Item W8304	C. Hanks	NORTH
2 sessions TTh	Jan 9 - Jan 11	1:00 - 5:00pm

#### Access 2016: Level 2

Expand your knowledge of relational database design, write advanced queries, structure existing data, validate data entered into a database, and customize reports. See website for prerequisite information. Fee: \$259

Item W8307	C. Hanks	NORTH
2 sessions TTh	Jan 16 - Jan 18	1:00 - 5:00pm

### Cyber Safety NEW!

Designed for non-technical end users of computers, mobile devices, networks and the Internet. Learn what you can do to protect yourself and your organization from technology-related risks. Understand security compliance considerations, social engineering, malware, and various other data-security-related concepts. Fee: \$129

Item W8387	C. Hanks	NORTH
1 Thursday	Feb 1	1:00 - 5:00pm

### Data Visualization Using Power View, Power Pivot, Power Query, Power Map, and Power BI NEW!

Combine the functionality of Power View, PowerPivot, Power Query, and Power BI into graphs, charts, KPIs, reports, and other visualizations for use in

your business. This course is lab example intensive. See website for prerequisite information. Fee: \$459

Item W8336	C. Hanks	NORTH
4 sessions TTh	Feb 13 - Feb 22	8:30am - noon

### Excel 2016: Data Analysis with Pivot Tables

Harness the power of advanced PivotTable features and create PivotCharts to help you gain a competitive edge. Summarize data for you to analyze and organize the data in a way that can be meaningfully presented to others. See website for prerequisite information. Fee: \$135

Item W8317	C. Hanks	NORTH
1 Tuesday	Jan 30	8:00am - noon

### Excel 2016: Data Analysis with Power Pivot

Gain a solid understanding of Power Pivot to maximize your effectiveness when analyzing data. Organize, manipulate, and report on your data in the best way possible. See website for prerequisite information. Fee: \$135

Item W8318	C. Hanks	NORTH
1 Tuesday	Jan 30	1:00 - 5:00pm

### Excel 2016: Level 1

Organize, calculate, analyze, revise, update, and present your data in ways that will help the decision makers in your organization steer you in the right direction. Get a foundation for Excel knowledge and skills which you can build upon to eventually

become an expert in data analysis. See website for prerequisite information. Fee: \$259

Item W8306 C. Hanks NORTH  
2 sessions TTh Jan 16 - Jan 18 8:00am - noon  
Item W8325 S. Saunders NORTH  
3 sessions TTh Jan 30 - Feb 6 6:00 - 8:40pm

### Excel 2016: Level 2

Create advanced workbooks and worksheets that can help deepen your understanding of organizational intelligence. Analyze massive amounts of data and extract actionable information from it. See website for prerequisite information. Fee: \$259

Item W8311 C. Hanks NORTH  
2 sessions TTh Jan 23 - Jan 25 8:00am - noon  
Item W8335 S. Saunders NORTH  
3 sessions MW Feb 12 - Feb 21 6:00 - 8:40pm  
NO CLASS 2/19

### Excel 2016: Level 3

Troubleshoot large, complex workbooks, automate repetitive tasks, engage in collaborative partnerships involving workbook data, construct complex Excel functions, and use those functions to perform rigorous analysis of extensive, complex datasets. See website for prerequisite information. Fee: \$259

Item W8343 C. Hanks NORTH  
2 sessions TTh Feb 27 - Mar 1 8:00am - noon  
Item W8355 S. Saunders NORTH  
3 sessions MW Mar 5 - Mar 12 6:00 - 8:40pm

### MS Project for Project Managers

Gain hands-on experience using MS Project software in the key roles of planning, control and execution. See website for prerequisite information. Fee: \$599

Item W8329 R. Nicklas, PMP NORTH  
4 Saturdays Jan 20 - Feb 10 8:00am - 12:30pm

### QuickBooks

Track money coming in and out of your business or personal account using proven tools and easy forms. Class covers creating your business, set-

ting up customers, vendors, account charts, and invoices. See website for prerequisite information. Fee: \$405

Item W8338 C. Knutson NORTH  
4 sessions MW Feb 12 - Feb 26 6:00 - 9:00PM  
NO CLASS 2/19

### SharePoint 2016 Business Process Automation and Business Intelligence

Use SharePoint's Business Intelligence tools to transform raw data into meaningful Power View Reports and dashboards. Automate business processes with workflows, create and publish PowerPivot dashboards, build visualizations using Power View, store and manage records, and protect data. See website for prerequisite information. Fee: \$269

Item W8344 C. Hanks NORTH  
2 sessions TTh Feb 27 - Mar 1 1:00 - 5:00pm

### SharePoint 2016 Introduction

SharePoint is a web platform tool that allows for collaboration within and across teams. This class introduces you to SharePoint and focuses on how to access and navigate content, work with the Ribbon and customize site navigation, understand web parts and app parts, and create and work with lists and libraries. See website for prerequisite information. Fee: \$269

Item W8312 C. Hanks NORTH  
2 sessions TTh Jan 23 - Jan 25 1:00 - 5:00pm

### SharePoint 2016 Site Owner

Combine MS Office tools and the Web into a single environment to share information and collaborate with colleagues. Manage list and library settings and permissions, work with content types and create views, configure search behavior, work with OneDrive for Business, create and add content to pages, create and manage sites, work with wikis and blog. See website for prerequisite information. Fee: \$475

Item W8337 C. Hanks NORTH  
4 sessions TTh Feb 13 - Feb 22 1:00 - 5:00pm

### Word 2016

Create professional-looking documents, add tables and lists, add design elements and layout options, and proof documents. Employ techniques to improve the appearance and accuracy of document content. See website for prerequisite information. Fee: \$259

Item W8314 S. Saunders NORTH  
2 Saturdays Jan 20 - Jan 27 8:30am - 12:30pm

## GRAPHICS AND PUBLISHING

### Illustrator CC: Level 1

Create vector graphics for web and print media that will captivate your audience. Topics consist of efficiency with quick keys, interface basics, selection techniques, creating and manipulating shapes, and using color and text to bring out your design. See website for prerequisite information. Fee: \$549

Item W8331 M. Olson NORTH  
6 sessions TTh Jan 23 - Feb 13 6:00 - 9:00pm  
NO CLASS 2/8

### InDesign CC: Level 1

Produce professional page layouts for business cards, fliers and multi-page documents for print publishing. Topics consist of efficiency with quick keys, interface basics, new document set up, import and manipulate text and graphics, and work with master pages and colors. See website for prerequisite information. Fee: \$485

Item W8364 M. Olson NORTH  
5 sessions MW Mar 5 - Mar 19 6:00 - 9:00pm

### InDesign CC: Level 2 - Interactive PDFs

Use InDesign to create PDFs for print and electronic interaction. Explore the interactive features, add buttons, bookmarks, URLs, and text fields to take your PDFs to the next level of today's digital landscape. See website for prerequisite information. Fee: \$109

Item W8369 M. Olson NORTH  
1 Wednesday Mar 21 6:00 - 9:00pm

### Photoshop CC: Level 1

Use an impressive array of tools for editing digital photos, scanned photographs and creating photo-realistic images. Topics consist of efficiency with quick keys, interface basics, selection techniques, image retouching and restoration, and using layers and masks to your advantage. See website for prerequisite information. Fee: \$485

Item W8308 M. Olson NORTH  
5 sessions TTh Jan 4 - Jan 18 6:00 - 9:00pm

## INSTRUCTOR SPOTLIGHT

### Cliff Hanks

For the past 18 years at Bellevue College, Cliff Hanks has taught business professionals and career changers to effectively use Microsoft Access, Excel, Outlook, PowerPoint, Word, SharePoint, and Windows. In addition to teaching for Bellevue College, he does private training through the Bellevue College Business Training Institute, where he helps people and organizations get more done in less time and with less effort. He has developed customized Microsoft Office solutions using Visual Basic for Applications for large corporations, universities, and hospitals, and small businesses. Cliff graduated Summa Cum Laude from Brigham Young University with a Degree in Training and Development.

## Photoshop CC: Level 2

Build on your basic Photoshop skills using Adobe Bridge, processing images with camera raw, re-sizing and cropping images, color management, color correction, and exploring powerful editing techniques used by professionals. See website for prerequisite information. Fee: \$485

Item W8372 M. Olson NORTH  
5 sessions TTh Mar 8 - Mar 22 6:00 - 9:00pm

## Photoshop CC: Level 2 – Using and Creating Brushes

Take an in-depth look at the Photoshop brush tools. Learn to use their settings to master different effects and create your own brushes. With these tools you can create effects that resemble actual paintings

and drawings. See website for prerequisite information. Fee: \$205

Item W8341 M. Olson NORTH  
2 sessions MW Feb 26 - Feb 28 6:00 - 9:00pm

## GRAPHIC DESIGN

### Advertising Design

Learn effective advertising visuals and apply concepts and tools learned in Design Foundation Series and Visual Designer Series to create magazine, newspaper and online ads for your portfolio. Course is in a workshop format; portfolio pieces developed through homework and in-class critiques. See website for prerequisite information. Fee: \$329

Item W8328 S. Glass NORTH  
5 Wednesdays Jan 10 - Feb 7 6:00 - 9:00pm

### Branding Business

This class is designed to give you a real world view of what a graphic designer is tasked to create for their clients. It takes you on a journey from concept to completion and will provide you with 7-10 pieces for your portfolio capstone. This is a required class and prerequisites are Illustrator, Photoshop and InDesign. Fee: \$329

Item W8381 M. Olson NORTH  
5 sessions MW Jan 3 - Jan 22 6:00 - 9:00pm  
NO CLASS 1/15

### Color in the Digital Age

This course is designed for artists interested in color theory fundamentals and the practical application of color in graphic design and more. Receive an introduction to how color is created in the most common graphic design software applications. Completion of Photoshop Level 1 strongly recommended. See website for required text. Fee: \$329

Item W8371 I. Alessandrini NORTH  
5 Thursdays Feb 22 - Mar 22 6:00 - 8:30pm

### Drawing Basics

Designed for non-artists who want a fun, informative and stress-free introduction to drawing. Learn basic sketching and drawing techniques including the use of line, space and perspective. Discover the secrets of shading solid forms while learning to draw common still lifes. Class is a combination of lecture, demonstration and one-on-one feedback. Visit our website for what to bring to first class and more information. Fee: \$269

Item W9486 C. Cooney-Wickett NORTH  
8 Fridays Jan 12 - Mar 2 10:00am - 1:00pm

### Graphic Design Basics

All forms of visual art are based on fundamental principles of aesthetic design. Learn basic design terminology and concepts and create two-dimensional abstract compositions using the elements of line, shape, space, value and color. Explore page and image management methods such as scaling, cropping and overlapping. Learn about information architecture and content hierarchy and how to assemble type and images using a grid. See website for required text. Fee: \$329

Item W8319 J. Aguilera NORTH  
5 Tuesdays Jan 2 - Jan 30 6:00 - 9:10pm

### Graphic Design Certificate Capstone

As the final course in the Graphic Design Certificate Program, students will cover the print production process and develop an online portfolio. Online portfolios will be presented to the class. See website for required text, prerequisites and more information. Fee: \$395

Item W8366 J. Aguilera NORTH  
5 Mondays Feb 12 - Mar 19 6:00 - 9:00pm  
NO CLASS 2/19

Registration is by permission only. To enroll, please contact Customer Service at 425-564-2263.

## GRAPHIC DESIGN CERTIFICATE

### Register for a free information session

Monday, Dec. 4 6:00 - 8:00pm  
Item FCOBB M. Olson NORTH

Register by calling (425) 564-2263  
or online at [www.BCconted.com](http://www.BCconted.com)

### Turn your creativity into a career.

- Courses combine artistic and technical training.
- Practical, work-ready skills
- Small hands-on courses taught by successful designers
- Flexible program designed to work around your schedule

The program is separated into four series of classes that build on each other:

- Design Foundation Series: concepts and foundations needed as a Graphic or Visual Designer
- Visual Designer Series: hands-on skills with tools needed for visual design
- Design Portfolio Series: application of skills and concepts to create portfolio pieces
- Capstone Series: culmination of all the series to create a complete portfolio and brand your Graphic Design business

Developed by an advisory committee of design professionals representing a variety of disciplines, our Graphic Design Certificate Program can help you combine your artistic and technical talents to develop practical skills that are in demand.

The program also covers how to translate a concept into a visual by hand, develop pre-press skills, and run a graphic design business, including uncovering client needs, estimating costs, pricing and marketing your services, collaborating and negotiating effectively, and preparing contracts. Completion of the Graphic Design Capstone course is required to earn the certificate.

For information on our certificates visit:

<http://www.bellevuecollege.edu/ce/certificate-programs/>

**HTML and CSS: Level 1**

Create the content of a web page with text, images and hyperlinks. Enhance the look and feel of your website using Cascading Style Sheets to modify page text and layout. Use current coding standards to make pages work in today's environment. See website for prerequisite information. Fee: \$699

Item W8327 R. Gildea NORTH  
7 sessions MW Jan 17 - Feb 7 6:00 - 9:00pm

Item W8342 O. Szemetylo NORTH  
6 sessions MW Feb 5 - Feb 26 6:00 - 9:30pm  
NO CLASS 2/19

**InDesign CC: Level 1**

Produce professional page layouts for business cards, fliers and multi-page documents for print publishing. Topics consist of efficiency with quick keys, interface basics, new document set up, import and manipulate text and graphics, and work with master pages and colors. See website for prerequisite information. Fee: \$485

Item W8364 M. Olson NORTH  
5 sessions MW Mar 5 - Mar 19 6:00 - 9:00pm

**Infographics Using Illustrator CC**

Discover what an effective infographic can do to convey your ideas. This class is for students comfortable with Illustrator foundations that would like to expand their knowledge. Topics will include planning an effective infographic, building a grid, working with color and type, and creating a map and pie chart to engage your target audience. See website for prerequisite information. Fee: \$289

Item W8347 M. Olson NORTH  
3 Saturdays Mar 3 - Mar 17 1:30 - 4:30pm

**Photoshop CC: Level 1**

Use an impressive array of tools for editing digital photos, scanned photographs and creating photo-realistic images. Topics consist of efficiency with quick keys, interface basics, selection techniques, image retouching and restoration, and using layers and masks to your advantage. See website for prerequisite information. Fee: \$485

Item W8308 M. Olson NORTH  
5 sessions TTh Jan 4 - Jan 18 1:30 - 4:30pm

**Print Media Design**

Apply concepts learned in Design Foundation series and tools learned in Visual Designer series to create posters, CD/book covers, and collateral materials to incorporate into your portfolio. Portfolio pieces developed through homework and in-class critiques. Refinement will occur throughout the course and work on a computer outside of class is vital. See website for prerequisite. Fee: \$319

Item W8349 J. Aguilera NORTH  
5 Tuesdays Feb 6 - Mar 6 6:00 - 9:00pm

**The Business of Graphic Design**

Whether you plan to freelance or manage a firm, graphic designers need to understand all parts of the business. Learn how to uncover client needs, estimate costs, establish pricing, negotiate, market yourself, prepare contracts, and understand intel-

lectual property essentials. See website for required text. Fee: \$279

Item W8332 M. Olson NORTH  
4 sessions MW Feb 5 - Feb 14 6:00 - 9:00pm

**Typography**

This course is designed for anyone interested in learning more about the fundamentals of typography. Students will learn about type weight, scale, style, font, kerning, leading, alignment and more. Class includes lectures, discussions, and group exercises. See website for required text. Fee: \$239

Item W8340 I. Alessandrini NORTH  
4 Tuesdays Feb 6 - Feb 27 6:00 - 8:30pm

**User Experience Design Fundamentals**

Design websites that maximize the user's positive experience with the site. Simulate the work of the design team in implementing user experience design principles. Create user personas and scenarios; site organization and task flows; storyboards, wireframes and prototypes; and conduct usability tests. See website for prerequisite information. Fee: \$569

Item W8313 D. Shillcutt NORTH  
6 sessions TTh Jan 9 - Jan 25 6:00 - 9:00pm

**USER EXPERIENCE (UX) AND WEB DESIGN****Design Principles**

Explore the planning and design phase of creating a user-focused site. Define the purpose and audience, outline the structure and navigation, and design the look and feel. Create a detailed plan for your site. See website for prerequisite information. Fee: \$309

Item W8302 R. Gildea NORTH  
3 sessions MW Jan 3 - Jan 10 6:00 - 9:00pm

Item W8322 K. Gill NORTH  
3 Saturdays Jan 20 - Feb 3 9:00am - noon

**Design Tools**

Examine the process of building a website and the various tools you can use. Explore the planning tools, text editors, authoring software, online tools and content management systems used by web designers. Apply your knowledge of HTML and CSS code to use these tools to build a website step-by-step. See website for prerequisite information. Fee: \$595

Item W8315 O. Szemetylo NORTH  
6 sessions MW Jan 8 - Jan 29 6:00 - 9:00pm  
NO CLASS 1/15

**HTML and CSS: Level 1**

Create the content of a web page with text, images and hyperlinks. Enhance the look and feel of your website using Cascading Style Sheets to modify page text and layout. Use current coding standards to make pages work in today's environment. See website for prerequisite information. Fee: \$699

Item W8327 R. Gildea NORTH

Item W8377 O. Szemetylo NORTH  
6 sessions MW Mar 5 - Mar 21 6:00 - 9:30pm

**jQuery Fundamentals**

Use jQuery to add professional-quality code modules and UI widgets. Make interactive web pages easy and intuitive to build. See website for prerequisite information. Fee: \$405

Item W8359 M. Maxwell NORTH  
4 sessions TTh Mar 6 - Mar 15 6:15 - 9:15pm

## WEB DESIGN CERTIFICATE

### FREE INFORMATION SESSIONS

Wed., Dec. 6 6:00 - 8:00pm  
Item FCSAE M. Olson NORTH

### Register by calling (425) 564-2263

Certificate requires a total of 177 course hours.

Our Web Design Certificate Program was created by an advisory board of web designers and managers from the area's leading employers and by a team of instructors with deep industry experience. This challenging program teaches skills that are directly transferable to the workplace. Hands-on classes offer high-level training in the most current industry practices and emphasize learning by doing. Instructors are respected professionals currently working in the field.

The Bellevue College Continuing Education Web Design Certificate Program offers a breadth of classes, including a focus on user-centered design. BC CE's program includes courses on user experience design, responsive design for a variety of devices, search engine optimization, and web accessibility, all of which are critical skills for any web design professional.

### Responsive Web Design

Be adept at crafting websites to provide an optimal viewing experience — easy reading and navigation with a minimum of resizing, panning, and scrolling — across a wide range of devices from desktop computer monitors to mobile phones. See website for prerequisite information. Fee: \$559

Item W8378 R. Gildea NORTH  
7 sessions MWTTh Mar 7 - Mar 22 6:00 - 9:00pm  
CLASS MEETS MW AND TWO TH, 3/15 AND 3/22.

### Scripting for Web Designers

Discover how scripting affects the behavior and presentation of a web page, the roles of front-end and back-end programming languages, and how a data from a database makes its way onto a dynamic web page. Perform hands-on exercises using PHP, MySQL, and JavaScript. See website for prerequisite information. Fee: \$669

Item W8339 A. Bliven NORTH  
7 sessions TTh Jan 30 - Feb 22 6:00 - 9:00pm  
NO CLASS 2/8

### Search Engine Optimization

Increase your chances of being in the top of the search engine results. Create and apply effective keywords to site content, set-up a proper site structure and understand the importance of linking. Develop a strategy for improving your website to work better with the search engines. See website for prerequisite information. Fee: \$289

Item W8310 Staff ONLINE  
Jan 22 - Mar 17

*This is a self-paced ONLINE class from Jan 22 to Mar 17.*

### User Experience (UX) - Usability Studies

Analyze existing product, service or other technology systems. Use heuristics to communicate usability standards. Create and test prototypes to understand how usability testing can improve human-computer interactions. See website for prerequisite information. Fee: \$309

Item W8368 K. Gill NORTH  
3 sessions TTh Mar 13 - Mar 20 6:00 - 9:00pm

### User Experience Design Fundamentals

Design websites that maximize the user's positive experience with the site. Simulate the work of the

design team in implementing user experience design principles. Create user personas and scenarios; site organization and task flows; storyboards, wireframes and prototypes; and conduct usability tests. See website for prerequisite information. Fee: \$569

Item W8313 D. Shillcutt NORTH  
6 sessions TTh Jan 9 - Jan 25 6:00 - 9:00pm

### User Experience Research

Prepare, conduct, analyze, and present user experience research studies that result in an understanding of user needs and design recommendations. Employ research methods widely used in the technology industry. See website for prerequisite information. Fee: \$699

Item W8348 Staff NORTH  
7 sessions TTh Feb 13 - Mar 6 6:00 - 9:00pm

### UX Design Certificate Capstone

The final capstone project utilizes all the skills learned throughout the UX/UI Designer Certificate program. This capstone will form a central part of your professional portfolio. The Capstone is an individualized ePortfolio in which you can expect to spend as much as 30 hours outside of class in development. Final session is your presentation. Please call Customer Service at 425-564-2263 to enroll. Fee: \$409

Item W8370 K. Gill NORTH  
5 Wednesdays Jan 3 - Mar 21  
Class Schedule Jan 3 6:00-7:00pm  
Jan 24 6:00-8:30pm  
Feb 7 6:00-9:00pm  
Feb 28 6:00-8:30pm  
Mar 21 6:00-9:00pm

*Registration is by permission only. Please call Customer Service at (425) 564-2263 to enroll in the class*

### Web Design Certificate Capstone

Develop your website to complete your Web Design Certificate Program. Each session has a focus in the development of your site. Final session is your site presentation. Registration is by permission only. Please call Customer Service at 425-564-2263 to enroll. Fee: \$409

Item W8384 O. Szemetylo NORTH  
5 Tuesdays Jan 23 - Mar 20  
Class Schedule Jan 23 6:00 - 7:00pm  
Feb 6 6:00 - 8:30pm  
Feb 20 6:00 - 9:00pm  
Mar 6 6:00 - 8:30pm  
Mar 20 6:00 - 9:00pm

For information on our certificates visit:

<http://www.bellevuecollege.edu/ce/certificate-programs/>

**Prerequisites:** Many computer classes list "prerequisites," which are considered to be basic skills and expected knowledge prior to taking the class. Instructors will assume a readiness for the class materials and will not use class time to discuss prerequisite material. If you are unsure about your level of proficiency or have questions about prerequisites, please call CE Tech Programs at (425) 564-4020 or read our full course descriptions online.

## DATABASE CERTIFICATE PROGRAMS

### FREE INFORMATION SESSIONS

Tuesday, December 5 6:00 -8:00pm  
Item FCODR A. Harney NORTH

**Register by calling (425) 564-2263**

### DATABASE ADMINISTRATOR CERTIFICATE

A Database Administrator designs, builds, and manages effective database systems. This field is projected to be one of the fastest growing occupations over the next six years. This certificate program prepares students to perform maintenance tasks, such as back up and restore a database, integrate data from various sources, troubleshoot problems, implement security, ensure database availability and performance, and coordinate activities with network and Web administrators.

The program's small classes let instructors give students personal attention. Classes are taught during evenings and weekends to accommodate the schedules of working professionals. Our flexible program lets you start any quarter you like and finish at your own pace. You can take as few as one or two classes a week. Although the program can be completed in a year and a half, you may take as long as three years to earn your certificate.

### DATABASE BUSINESS INTELLIGENCE DEVELOPER CERTIFICATE

A Database Business Intelligence (BI) Developer organizes a company's operational data into formats that can be queried using BI developer tools. The resulting reports show trends and patterns that can help a company make better business decisions. The Database Business Intelligence Developer Certificate Program prepares students to design and create data warehouses and OLAP cubes, use BI developer tools to query data, use MDX to query OLAP cubes, and create reports based on queries you create.

For information on our certificates visit:

<http://www.bellevuecollege.edu/ce/certificate-programs/>

## Web Accessibility

Examine the current guidelines and requirements for making a website accessible to users with disabilities. Explore ways in which users with disabilities access websites and receive hands-on tips and techniques for making websites accessible. See website for prerequisite information. Fee: \$279

Item W8379 A. Golden NORTH  
3 sessions MW Mar 7 - Mar 14 6:00 - 9:00pm

## Web Graphics

Optimize graphics for effective and efficient presentation on a website. Apply the principles of effective site design using Photoshop's web graphic tools for implementing layers and slices. Discuss issues related to procuring and using existing illustrations and photographs. See website for prerequisite information. Fee: \$405

Item W8320 M. Olson NORTH  
4 sessions TTh Feb 20 - Mar 6 6:00 - 9:00pm  
NO CLASS 3/1

## WEB DEVELOPMENT

### Java Programming

Explore the fundamentals of the Java programming platform including Eclipse IDE. Object-oriented programming principles, language constructs, class hierarchy, interfaces, packages, exceptions, I/O, User Interfaces, Event handling, JDBC, Servlets, and the Collections API are covered. See website for prerequisite information. Fee: \$959

Item W8373 D. Gray NORTH  
10 sessions TTh Feb 20 - Mar 22 6:00 - 9:00pm

## DATABASE DESIGN AND MANAGEMENT

### Basic Relational Database Essentials

Work with relational databases within the SQL Server Management Studio (SSMS) environment. Use the tools in SSMS to diagram an existing database and to create and run some very simple SELECT and CREATE TABLE structured query language commands. See website for prerequisite information. Fee: \$99

Item W8300 A. Johnson NORTH  
1 Tuesdays Jan 2 6:00 - 9:00pm

### Beginning SQL Server

Perform a core set of job-related tasks with a focus on the tools of SQL Server Management Studio (SSMS). Automatically generate queries, set up a remote connection, manage security permissions, monitor transactions and transaction locking, create and move a database, control the operation of services in SQL Server, and create, schedule and monitor jobs. See website for prerequisite information. Fee: \$599

Item W8353 S. Wang NORTH  
4 Saturdays Feb 17 - Mar 10 8:00am - 12:30pm

### Data Visualization Using **NEW!** Power View, Power Pivot, Power Query, Power Map, and Power BI

Combine the functionality of Power View, PowerPivot, Power Query, and Power BI into graphs, charts, KPIs, reports, and other visualizations for use in your business. This course is lab example intensive. See website for prerequisite information. Fee: \$459

Item W8336 C. Hanks NORTH  
4 sessions TTh Feb 13 - Feb 22 8:30am - noon

### Database Administrator Certificate Capstone

The final capstone project utilizes all the skills learned throughout each of the classes in the Database Administrator Certificate Program. This is an individualized project that will form a central part of the student's professional portfolio, and will require time outside of class in development. Registration is by permission only. Please call Customer Service at 425-564-2263 to register. Fee: \$469

Item W8365 S. Wang NORTH  
2 Mondays Jan 22 - Mar 19 6:00 - 9:00pm  
TWO SESSIONS ONLY: 1/22 AND 3/19

### Database Business Intelligence Developer Certificate Capstone

The final capstone project utilizes all the skills learned throughout each of the classes in the Database Business Intelligence Developer Certificate Program. This is an individualized project that will form a central part of the student's professional portfolio, and will require time outside of class in development. Registration is by permission only. Please call Customer Service at 425-564-2263 to enroll in the class. Fee: \$509

Item W8357 A. Harney NORTH  
4 Wednesdays Jan 10 - Mar 14

CLASS SCHEDULE: Jan 10 . . . . . 6:00 - 8:00pm  
Jan 31 . . . . . 6:00 - 8:00pm  
Feb 21 . . . . . 6:00 - 8:00pm  
Mar 14 . . . . . 6:00 - 9:00pm

### Database Design

Familiarity with the principles of database design will help you design to ensure data integrity. Classroom exercises will help you to actively master the content, with practice opportunities, discussions, and skill checks, where you design a database from scratch and redesign an existing database. See website for prerequisite information. Fee: \$289

Item W8305 A. Johnson NORTH  
3 sessions T Th Jan 4 - Jan 11 6:00 - 9:00pm

### Introduction to Tableau

Analyze, visualize and share information using Tableau. Move from simple to complex visualizations and learn how to combine them in interactive dashboards. See website for prerequisite information. Fee: \$405

Item W8386 C. Gremore NORTH  
4 Wednesdays Feb 28 - Mar 21 6:00 - 9:00pm

### PowerShell: Level 1

If you manage a Windows system, PowerShell will make it easier to automate much of your work. Create and debug PowerShell scripts and manage files, services, and the registry. See website for prerequisite information. See website for prerequisite information. Fee: \$305

Item W8309 M. Law NORTH  
2 Saturdays Jan 6 - Jan 20 12:30 - 4:30pm  
NO CLASS 1/13

### PowerShell: Level 2

Harness the power of Microsoft's .NET Framework using PowerShell to automate complex and repetitive tasks in order to execute these tasks easily and consistently. See website for prerequisite information. Fee: \$305

Item W8324 M. Law NORTH  
2 Saturdays Jan 27 - Feb 3 12:30 - 4:30pm

### PowerShell: Level 3 **NEW!**

Advance your knowledge of Microsoft Windows' integrated scripting language by exploring programming concepts in PowerShell. Use elements such as loops, conditional branching and object oriented programming to create flexible and useful production scripts. Programming with PowerShell provides essential skills for Windows administrators of all levels, and is a prerequisite for advanced topics such as application development with .NET. This course also provides an introduction to programming concepts. Fee: \$305

Item W8333 M. Law NORTH  
2 Saturdays Feb 10 - Feb 17 12:30 - 4:30pm

### PowerShell Stack **NEW!**

PowerShell: Levels 1 to 3 for a discounted price! Learn to harness Microsoft Windows' integrated scripting language to automate routine and complex administrative tasks. Get started with the basics of the language and progress to creating sophisticated scripts that you can easily share with other administrators in your network. This course will take the student from a beginning understanding of PowerShell, which will provide essential skills for Windows administrators of all levels, through advanced topics such as PowerShell for Active Directory, PowerShell for Azure, PowerShell for SCCM, and Desired State Configuration. See website for prerequisite information. Fee: \$845

Item W8382 M. Law NORTH  
6 Saturdays Jan 6 - Feb 17 12:30 - 4:30pm  
NO CLASS 1/13

### SQL Server Analysis Services (SSAS)

Design data marts, develop multi-dimensional cubes, and utilize Office tools to present BI analytical data. Explore Star and Snowflake schema designs, dimensional attributes, hierarchies, measures, measure groups, MDX queries and cube administration. Create cube-driven reports with Excel and PowerPivot. See website for prerequisite information. Fee: \$1,305

## C# PROGRAMMING CERTIFICATE

### Free information sessions

Tuesday, Dec. 5 6:00 - 8:00pm

Item FCSAB C. Torkko NORTH

Register by calling (425) 564-2263

or online at

[www.BCconted.com/learn/c-sharp](http://www.BCconted.com/learn/c-sharp)

The C# Programming Certificate was designed by professional developers, managers and programmers to target the skills in demand by employers today. The certificate program leads the student through four levels of C# development classes, as well as additional offerings in design and development theory. Labs typically make up about 30% of the class time. The certificate includes a capstone project, designed and developed to demonstrate skills learned.

The program's small classes let instructors give students personal attention. Classes are taught during evenings and weekends to accommodate the schedules of working professionals. Our flexible program lets you start any quarter you like and finish at your own pace. You can take as few as one or two classes a week. Although the program can be completed in a year, you may take as long as three years to earn your certificate. And if you only need to take a key course or aren't ready to complete an entire program, courses may be taken individually.

For information on our certificates visit:

<http://www.bellevuecollege.edu/ce/certificate-programs/>

Item W8375 A. Harney NORTH  
13 sessions TTh Feb 6 - Mar 22 6:00 - 9:05pm  
NO CLASS 2/8

## SQL Server Reporting Services (SSRS)

This course is designed to teach the advanced functionality, report server administration, and security issues of SQL Server Reporting Services. Topics include: advanced report design, integrating parameters and filters, implementing interactive reporting features, scheduling automated delivery of reports, securing Reporting Services, optimizing report performance, implementing strategies for business and support systems, and rendering reports using .NET code. Prerequisite: T-SQL Programming or equivalent. Fee: \$995

Item W8321 A. Harney NORTH  
10 sessions TTh Jan 2 - Feb 1 6:00 - 9:15pm

## Structured Query Language: (SQL) Level 1

Create queries using a standard structured query language (SQL) applicable to almost any relational database. Get hands-on practice creating queries to retrieve data in various forms. Write queries to manipulate data in a table and create, alter, and drop tables and views. See website for prerequisite information. Fee: \$709

Item W8326 M. Law NORTH  
7 sessions MW Jan 17 - Feb 7 6:00 - 9:00pm

## Structured Query Language: (T-SQL) Level 2

Create queries using T-SQL commands. Merge data between tables, track data changes, rank data and compare tables, join data from subqueries and table-valued functions, perform recursive queries, use common table expressions, query Excel data, and transfer XML data between a SQL Server table and an outside file. See website for prerequisite information. Fee: \$599

Item W8345 V. Leal NORTH  
6 sessions TTh Feb 13 - Mar 1 6:00 - 9:00pm

# PROGRAMMING

## Algorithms in .NET

Explore algorithm techniques and data structures, strategies used for sorting, binary searching, stacks, queues, dynamically sized arrays, parsing numbers/strings, lists, and binary trees. See website for prerequisite information. Fee: \$889

Item W8352 L. Zerrouki NORTH  
8 Saturdays Jan 20 - Mar 10 8:30am - 12:15pm

## Basic Programming Essentials

Discuss computer programming concepts and terminology. Write simple computer programs using the basic coding structures in C#, such as assignment statements, variables, constants, decision making statements, loops, and arrays. Test and debug simple programs in Visual Studio (VS). All basic coding structures taught in this course can be applied to any programming language. See website for prerequisite information. Fee: \$399

Item W8301 M. Law NORTH  
4 sessions TWThM Jan 2 - Jan 8 6:00 - 9:00pm

## C# Programming Certificate Capstone

Complete a project based on the requirements provided by the deadline specified for each project. Answer questions that simulate an interview. By successfully completing the projects and answering the interview questions, you will demonstrate a mastery of the skills taught and be prepared for acquiring a job that utilizes these skills. Registration is by permission only. Please call Customer Service at 425-564-2263 to enroll. Fee: \$409

Item W8358 C. Prothman NORTH  
4 Wednesdays Jan 10 - Mar 14  
CLASS SCHEDULE: Jan 10 6:00-8:00pm  
Jan 31 6:00-9:00pm  
Feb 21 6:00-9:00pm  
Mar 14 6:00-9:00pm

## C# Programming: 1

Apply the basic coding structures such as variables, constants, enumerations, decision making statements, loops, arrays, methods, and exception handling into Windows applications. You will also develop the skills for gathering input from the user in Graphical User Interface (GUI) type applications. See website for prerequisite information. Fee: \$939

Item W8330 L. Zerrouki NORTH  
9 sessions MW Jan 10 - Mar 12 6:00 - 9:20pm  
NO CLASS 1/15

Item W8360 K. Mahadevan NORTH  
8 Saturdays Jan 27 - Mar 17 8:15am- 12:00pm

## C# Programming: 2

Apply the .NET Framework and object-oriented programming principles in Console applications. Acquire skills to develop applications that incorporate structures, collections and custom exceptions. Develop the skill to test code using unit testing techniques. See website for prerequisite information. Fee: \$1,205

Item W8376 A. Suner NORTH  
12 sessions TTh Feb 13 - Mar 22 6:00 - 9:15pm

## C# Programming: 3

Implement file processing, generics, delegates, events, and asynchronous programming features in Console applications. You will also implement multi-threading using the Task Parallel Library (TPL). See website for prerequisite information. Fee: \$889

Item W8380 L. Zerrouki NORTH  
9 sessions MW Feb 21 - Mar 21 6:00 - 9:20pm

## C# Programming: 4

Develop skills to transfer data between a SQL Server database and XML files. Working in a team environment, apply the scrum/agile practices to design and write C# computer programs. The assigned projects are designed to refresh you on the materials already taught and to prepare you for the Capstone. See website for prerequisite information. Fee: \$889

Item W8367 C. Torkko NORTH  
10 sessions MW Feb 12 - Mar 19 6:00 - 9:00pm  
NO CLASS 2/19

## Data Access Using C#

Access a SQL Server database by applying the Entity Framework using both the database-first and code-first approaches. Use Language-Integrated Query (LINQ) to query and update arrays, entities, and XML documents. Acquire the skills needed for working with various types of data stores using LINQ and the Entity Framework in your C# applications. See website for prerequisite information. Fee: \$709

Item W8350 C. Prothman NORTH  
7 sessions TTh Feb 13 - Mar 6 6:00 - 9:00pm

## Java Programming

Explore the fundamentals of the Java programming platform including Eclipse IDE. Object-oriented programming principles, language constructs, class hierarchy, interfaces, packages, exceptions, I/O, User Interfaces, Event handling, JDBC, Servlets, and the Collections API are covered. See website for prerequisite information. Fee: \$959

Item W8373 D. Gray NORTH  
10 sessions TTh Feb 20 - Mar 22 6:00 - 9:00pm

## PowerShell: Level 1

If you manage a Windows system, PowerShell will make it easier to automate much of your work. Create and debug PowerShell scripts and manage files, services, and the registry. See website for prerequisite information. See website for prerequisite information. Fee: \$305

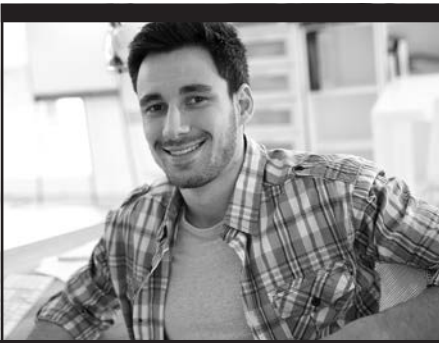

Item W8309 M. Law NORTH  
2 Saturdays Jan 6 - Jan 20 12:30 - 4:30pm  
NO CLASS 1/13

## INSTRUCTOR SPOTLIGHT

### Damon Gray

Damon has been in the technology industry since 1994; the last 10 years at Microsoft. His work has always been in software, mostly specializing in networking and large scale systems. He has worn the hat of a network engineer, software developer and software architect. Except for a short stint in Atlanta he has mostly lived and worked in the Seattle area.

## SOFTWARE TEST ENGINEER (STE)

### FREE INFORMATION SESSIONS

Item FCOAE J. Beswetherick NORTH

Register by calling (425) 564-2263  
or online at  
[www.BCconted.com/learn/swt](http://www.BCconted.com/learn/swt)

This certificate program is designed to prepare students to become an entry-level software tester in a variety of industries such as aerospace, biotech, gaming and software. Bellevue College Continuing Education has been successfully training software testers for over fifteen years.

The program was designed with the guidance of software testing industry professionals to best reflect the skills needed to succeed in today's workplace.

Because courses emphasize learning by doing, they incorporate extensive lab exercises to teach skills such as client-server testing and bug eradication. All instructors are experienced professionals currently working in the software testing field, and Bellevue College Continuing Education has been successfully training software testers for more than ten years.

## SOFTWARE TESTING & QUALITY ASSURANCE

### C# Automation: 1

Gain practical, hands-on experience with popular test frameworks and use them along with your knowledge of C# to create enterprise-quality automation applications. Implement quality from the ground-up, as well as build checks for existing software. See website for prerequisite information. Fee: \$905

Item W8361 D. Geiger ONLINE  
Jan 27 - Mar 17

### Principles of Software Testing

Discuss the tester's role in the product cycle and complete hands-on labs to develop software testing skills. Find and break down software problems, identify bugs, determine types of bugs, report bugs, and perform regression testing. See website for prerequisite information. Fee: \$659

Item W8316 J. Beswetherick NORTH  
7 sessions MW Jan 3 - Jan 29 6:15 - 9:15pm  
NO CLASS 1/15

## Professional Testing Methods

Explore test case development for the two most fundamental types of software testing: black box and white box. Practice writing and applying test cases, developing scripts, and using a wide variety of techniques to find bugs in software systems. See website for prerequisite information. Fee: \$759

Item W8374 E. Tjung NORTH  
9 sessions TTh Feb 22 - Mar 22 6:00 - 9:00pm

## Software Test Engineer Certificate Capstone

Demonstrate the skills and concepts acquired from the previous classes required for the STE Certificate. Design and execute multiple test passes against a small e-commerce application, then report test findings. Build the test environment and write custom testware to support test execution. Registration is by permission only. Please call Customer Service at 425-564-2263 to enroll. Fee: \$505

Item W8362 D. Geiger NORTH  
5 Saturdays Jan 20 - Mar 17 noon - 2:00pm  
CLASS MEETS 1/20, 2/3, 2/17, 3/3, AND 3/17.

## Test Planning, Modeling and Reporting

Develop advanced skills in test planning, prioritization and modeling. Plan recurring test activities and examine the product fundamentals necessary for decision making. Gain new skills and insight into test effectiveness, the measurement of test progress and identification of risks associated with complex software development projects. See website for prerequisite information. Fee: \$649

Item W8334 J. Beswetherick NORTH  
7 sessions MW Jan 31 - Feb 26 6:15 - 9:15pm  
NO CLASS 2/19

## iOS Bootcamp

Bellevue College is offering an evening and weekend 60 hour iOS development. The goal of the iOS Development Bootcamp is to transform you into an iOS developer. You will learn how to think like an iOS developer and come to understand Swift and Xcode, by building iOS Apps for a range of devices such as iPhone, iPad and Apple TV. Our program will provide you with instruction, data-driven curriculum and a top-notch learning environment that will help to launch you into your first developer role.

CHECK OUR WEBSITE FOR MORE INFORMATION.

## Bellevue College CE Testing Center

The Bellevue College North Campus Testing Center is an official testing center for Pearson VUE and Certiport testing. This includes testing services for information technology, regulatory, and certification boards as well as academic, government and corporate testing. Some of the exams offered include Cisco Certifications, CompTIA, CIW, Salesforce, and Microsoft Certified Professional testing.

The testing center also offers exam proctoring services for testers seeking to complete exams through secondary schools, colleges, universities, employers or government agencies. You don't have to be a student to use it.

Testing services are available Monday through Saturday with evening hours available. Testing can be scheduled by calling **425-564-4006** or by email at **bcproctor@bellevuecollege.edu**.

## BUSINESS AND PROFESSIONAL PROGRAMS

### Build an Ecommerce Business **NEW!**

Building an effective online presence is critical for growing your business as it gives your company access to thousands or millions of local, national or international customers who are searching, interacting, sharing and shopping online. Each student who completes this course will walk away with a foundational Ecommerce website that will be built in class while also learning how to boost online sales, get more traffic and convert customers using proven strategies. Fee: \$449

Item W9794 B. & Professional Staff NORTH  
5 sessions TTh Jan 9 - Jan 23 6:00 - 9:00pm  
*A NetID account is needed to access the course materials via Canvas, the online learning management system.*

### Engaging the "Right" Buyer **NEW!**

Product Management, Marketing and Sales leaders and their teams want to identify the RIGHT customers to quickly launch new, disruptive concepts – this course will help your team target and engage a narrow market segment most likely to readily adopt and use your breakthrough offering. Please see website for required texts. Fee: \$400

Item W9795 P. Hogan NORTH  
4 sessions TTh Feb 6 - Feb 20 6:00 - 9:00pm  
NO CLASS FEB 8.  
*A NetID account is needed to access the course materials via Canvas, the online learning management system.*

### Super Manager: Be the Boss Everyone Wants to Work For! **NEW!**

Managers influence employees' satisfaction at work. This course will help you become a super manager - someone who everyone wants to work for. Successful completion of this course will increase your ability to develop self-awareness regarding your managerial skills and display attentiveness to your employees; demonstrate consistency in your values, attitude, and behavior; identify when and how to appropriately exercise mental flexibility; display humility and confidence in your decisions as a manager and show confidence in your employees; ensure that employees maintain focus, and encourage employee satisfaction and motivation by creating a fun working environment. Please see website for required texts. Yields 12 PDUs. Fee: \$119

Item W9780 C. Hanks NORTH  
1 Monday Jan 8 1:00 - 5:00pm

### The "Real" Keys to Effective Leadership **NEW!**

What does it take to be a truly great leader? This class does a "deep dive" into each of these key leadership areas and provides you the skills and insight you need to elevate your game! Fee: \$299

Item W9759 D. Yeomans NORTH  
4 Thursdays Jan 18 - Feb 15 6:00 - 9:00pm  
NO CLASS FEB 8.

### Managing Business Processes: A "How To" Course **NEW!**

A "How To" course to effectively map out and improve core business processes. Great processes are accomplished quickly, with minimal waste and resources, and satisfy customers. This course will provide the skills for you to Design, Measure, Analyze, Improve, and Control processes critical to success. Those who attend will leave with a comprehensive tool kit of examples and methods you can immediately apply to your business—both large and small. Fee: \$299

Item W9763 D. Yeomans NORTH  
4 Fridays Feb 2 - Feb 23 8:30am - 12:30pm  
*A NetID account is needed to access the course materials via Canvas, the online learning management system.*

### Build and Present a Winning Business Case **NEW!**

Have you ever had an idea that remained just that—an idea? Great ideas do not become reality unless you know how to prepare and present the idea to those who matter. This course provides both the science and art of developing—and—presenting—a winning business case. Are you an entrepreneur wanting to gain acceptance and support for your idea? Do you work in a company and have a great idea you want to share and get approved? Do you need to attract new customers, partners, suppliers, and talent to your team? Do you simply want to become more organized and persuasive? If you answered any questions with a yes—take this course. You'll have fun, practice, and learn how to successfully prepare and present your great ideas! Fee: \$299

Item W9793 D. Yeomans NORTH  
3 Thursdays Mar 1 - Mar 15 6:00 - 9:00pm  
*A NetID account is needed to access the course materials via Canvas, the online learning management system.*

Registration for this self-paced, online class is open now through January 5 for the Winter quarter. Class may be accessed as early as January 2. Class must be finished by March 22. Please expect approximately one week from time of registration to be granted access to the online class.

### Appraisal Procedures

Meets criteria set by the Appraisal Foundation for Basic Appraisal Procedures and for appraiser pre-licensing education. Students apply knowledge learned in "Principles of Appraising" by developing graded form reports, and applying techniques to form and narrative reports. Includes overview of approaches to value and valuation procedures for residential applications. Approved for continuing education for real estate licensees. Please see our website for textbook information. Fee: \$224

Item W9818 S. Baenen ONLINE  
Jan 2 - Mar 22

Registration for this self-paced, online class is open now through January 5 for the Winter quarter. Class may be accessed as early as January 2. Class must be finished by March 22. Please expect approximately one week from time of registration to be granted access to the online class.

### Residential Market Analysis & Highest and Best Use

Meets the criteria set by The Appraiser Foundation for Residential Market Analysis and Highest and Best Use. Markets, sub-markets, market segmentation, supply side analysis, demand analysis, and the importance of market analysis to the appraisal process are covered in the first half of this course.

The second half focuses on the theory of Highest and Best Use. The course includes a case study and final exam. This course is approved by the Washington Dept. of Licensing for 15 Clock Hours for appraisers pre-licensing education. It is also approved by the DOL as education for Real Estate Licensees in addition to Appraiser pre-licensing. Please see our website for textbook information. Fee: \$150

Item W9819 S. Baenen ONLINE  
Jan 2 - Mar 22

Registration for this self-paced, online class is open now through January 5 for the Winter quarter. Class may be accessed as early as January 2. Class must be finished by March 22. Please expect approximately one week from time of registration to be granted access to the online class.

### Residential Site Valuation and Cost Approach

This course meets the criteria set by The Appraiser Foundation for Residential Site Valuation and Cost Approach. This course will help students gain a working knowledge of the various theories and methodologies for performing residential site valuation and developing the Cost Approach. Costing methods will be discussed and applications of the cost approach in residential appraising will be examined. The distinction between Replacement Cost New and Reproduction Cost New will be discussed. The course includes a case study and final exam. This course is approved by the Washington Dept. of Licensing for 15 Clock Hours for appraisers pre-licensing education. It is also approved by the DOL as education for Real Estate Licensees in addition to Appraiser pre-licensing. Please see our website for textbook information. Fee: \$150

Item W9820 S. Baenen ONLINE  
Jan 2 - Mar 22

Registration for this self-paced, online class is open now through January 5 for the Winter quarter. Class may be accessed as early as January 2. Class must be finished by March 22. Please expect approximately one week from time of registration to be granted access to the online class.

### Residential Report Writing

Meets the criteria set by The Appraiser Foundation for Residential Report Writing and Case Studies. The course covers the reporting options permitted by STANDARD 2. Issues are explored to illustrate the level of detail required in appraisal commentary so that appraisal reports are clear and not misleading (or fraudulent). The Uniform Residential Appraisal Report (URAR), is illustrated along with the requirements of the Uniform Appraisal Dataset (UAD). The course concludes with an overview of other more

commonly used residential appraisal forms in addition to the URAR. This course is approved by the Washington Dept. of Licensing for 15 Clock Hours for appraisers pre-licensing education. It is also approved by the DOL as education for Real Estate Licensees in addition to Appraiser pre-licensing. Please see our website for textbook information. Fee: \$150

Item W9821 S. Baenen ONLINE

### Supervising the Trainee Appraiser: National Regulations and Responsibilities

Required course for Registered Trainees and Supervisors. This course is an overview of national and state appraisal regulatory bodies as well as a comprehensive discussion of the minimum Appraiser Qualifications Board and the WA Dept. of Licensing qualifying criteria for supervisory appraisers and the various appraiser classifications. Obligations of appraiser ethics and competency are also discussed with a focus on supervisory appraisers and trainees. The course concludes with specific roles and responsibilities of supervisory appraisers and trainee appraisers, including a final chapter that serves as a best practices checklist, designed to ensure thorough and meaningful supervisory oversight, and best practice development by trainees in appraisal development and reporting. Fee: \$69

Item W9822 S. Baenen ONLINE  
Jan 2 - Mar 22

*Registration for this self-paced, online class is open now through January 5 for the Winter quarter. Class may be accessed as early as January 2. Class must be finished by March 22. Please expect approximately one week from time of registration to be granted access to the online class.*

## TECHNICAL WRITING

### Technical Writing Information Session

Would you like to know more about the field of technical writing and communication but are not sure how to get started? In this orientation, you'll learn about our programs, basic requirements, job opportunities, and what courses are best suited for your needs. Registration required. Free

Item WCOGC B. Mitsutama NORTH  
1 Monday Feb 26 6:00 - 8:00pm

### Fundamentals of Technical Writing

Learn the critical elements of audience, project design, language, use of graphics, editing, and problem solving. Working in groups, students gain practice and performance feedback in real-life technical writing exercises. Fee: \$299

## TECHNICAL WRITING CERTIFICATE

### FREE INFORMATION SESSIONS

Register by calling (425) 564-4018

or online at [www.BCconted.com](http://www.BCconted.com)

Our online Technical Writing Certificate Program was developed by respected industry professionals and targets in-demand skills. The program is designed for technical writers and editors who want to develop their skills or career changers with strong writing talent who want to broaden their skills. Instructors are working professionals who introduce real-world scenarios into the classroom. Course projects are hands-on, interactive, and directly transferable to the workplace.

For information on our certificates visit:

<http://www.bellevuecollege.edu/ce/certificate-programs/>

Item W9785 M. Blyther ONLINE  
Feb 6 - Mar 23

*This online, instructor-moderated class begins February 6 and ends March 23. (Equivalent to 15 classroom hours.)*

*Students must create their NetID to access this course in Canvas, the online learning management system.*

### Technical Writing Certificate - Inclusive

Salary scales for Technical Writers range from \$75,000-\$97,000 in the greater Seattle area (Glassdoor). Employment trends for Technical Writers are expected to grow by 10% over the next 8 years.

--US Dept. of Labor

This employs a Course Mentor approach targeted to working professionals with a strong knowledge base of the material at hand, who are looking to speed up the certificate process. Topics covered include: Principles of Technical Writing, Role of the Technical Writer, the Writing Process, Usability, Writing Strategies, Editing, Document Design, Intro

to HTML and XML, and Job Readiness. Fee: \$1500

Item W9791 M. Blyther ONLINE  
Jan 2 - Apr 20

*Students may enroll in this course up to January 5. This online, instructor-moderated CERTIFICATE Course begins January 2 and ends April 20. (Equivalent to 110 classroom hours.)*

### Developing Web Content

Learn how to write effective web content. Students will learn how to focus on the reader, set the tone on a home page, write pathway pages that are focused and well designed, and effectively use headings, illustrations, and links to add interest and readability. Note: This class does not cover blogging or twittering. Fee: \$299

Item W9756 S. Smith ONLINE  
Jan 2 - Feb 9

*This online, instructor-moderated class begins January 2 and ends on February 9. (Equivalent to 15 classroom hours.)*

*Recommended textbook: Letting Go of the Words: Writing Web Content That Works, 2nd ed.*

### Fundamentals of Document Design

Learn how to apply basic design concepts and typography to page design and layout for print documentation. Fee: \$299

Item W9789 J. Odell ONLINE  
Feb 26 - Mar 28

*This online, instructor-moderated class begins February 26 and ends on March 28. (Equivalent to 15 classroom hours.)*

## HEALTHCARE

### HEALTHCARE SOLUTIONS

#### 7 Hour HIV/AIDS Training for Healthcare

The 1988 Washington State Omnibus Law requires that certain people have HIV/AIDS education. If you are obtaining health care credentials, you must have this training. This course is offered once per month, from 8:00 a.m. to 4:00 p.m., with one hour for lunch (not provided). Fee: \$75.

*We will be adding additional classes to our Healthcare offerings. Please check our website.*

## ARTS & DESIGN

### OPEN CERAMIC LAB HOURS

Take the opportunity to practice the skills taught in class at your own pace. This open lab is only for students enrolled the current quarter in a ceramics class. Please wait until after your first in-class meeting to attend any of the open lab sessions.

Please note that open lab schedule varies each quarter. Check with your instructor or visit the website for lab hours, final pickup and discard dates

### CERAMICS

#### Beginning Hand Building and Hand Glazing

Students will be given the opportunity to learn and express their creativity using clay in a fun and engaging environment. No experience necessary. With weekly demonstrations and students creating multiple projects, you will learn the basic skills you need to create artistic and functional clay pieces. We will explore personalizing your work with your design aesthetic by adding clay objects and textures to dishes, bowls, and vases, creating dimension and unique style. This is the art of hand building! We will finish by learning the basics of glazing and firing to finish your works. By the end of this class, you will have completed 4 projects reflecting your personality and flair. Fee: \$299

Item W9501	S. Dickson	MAIN
8 Mondays	Jan 8 - Mar 12	6:30 - 9:30pm
NO CLASS on 1/15 & 2/19		

#### Wheel Throwing/Hand Building: Beginning

Wheel Throwing and Hand Building are taught simultaneously in this introductory course. Learn centering and tool use for shaping thrown items such as simple forms, cylinders, bowls and plates. In this introduction to hand building, learn how to create functional and decorative work using a variety of hand building techniques. Both low-fire and mid-fire clay and glazes are available. Projects develop from your skill level and personal ideas. See website for supply list. Tuition includes \$25 studio fee. Fee: \$355

Item W9505	R. Palasamudram	MAIN
10 Fridays	Jan 5 - Mar 9	9:00am - 12:00pm
Item W9506	L. Hobaica	MAIN
10 Saturdays	Jan 6 - Mar 10	10:00am - 1:00pm
Item W9507	P. Colyar	MAIN
10 Sundays	Jan 7 - Mar 11	10:00am - 1:00pm

### CRAFTS & HOBBIES

#### Fiber Arts: Felted Bags **NEW!**

This class will cover the fiber properties of wool; pattern design; surface design; resists; layout; wet felting techniques and much more! Students will make a small flat and 3D sample prior to constructing a personally designed bag of choice. See web for required supplies. Tuition includes a studio fee. Fee: \$279

Item W9490	J. Griffin	MAIN
2 sessions SSu	Jan 20 - Jan 21	9:30am - 3:30pm

#### Textile Block Printing **NEW!**

Explore the ancient worldly art and techniques of hand block printed textiles. Students will learn steps of designing a fabric composition; design and carve your own rubber and linoleum blocks for printing, and will work with textile inks to create large swatches of fabric and several small samples for multiple uses. This is a great collaborative workshop! See web for required supply list and more information. Tuition includes a studio fee. Fee: \$279

Item W9491	J. Griffin	MAIN
2 sessions SSu	Feb 10 - Feb 11	9:30am - 3:30pm

### DRAWING

#### Art Rx: Art for What Ails You

Want a break from your computer? Come and visit your right brain, in this playful, innovative art class that explores the mysteries of creativity, offers useful techniques in learning how to get out of your own way, and teaches you the secrets of the art making process. As your inner artist loosens up, so does your ability to breathe and flow, to problem solve and think outside of the box. Visit our website for more information. Fee: \$209

Item W9473	V. Dietrich	NORTH
6 Mondays	Jan 22 - Mar 5	2:00 - 5:00pm
NO CLASS on Feb 19		

***"It's the best drawing class I've ever taken! I learned new techniques of drawing, but more importantly, I got motivated to draw more!"***

— Student of Lee Wallat's class,  
Right Brain Drawing

#### Basic Drawing: Right-Brain Method

Utilizing whole brain research, explore the creative perceptual techniques that artists use to draw. Examine left hemisphere attributes (balancing a checkbook) vs right hemisphere (drawing, music), and do exercises that silence the linear, verbal left hemisphere in favor of the right's visual, spatial system. Through step-by-step drawing exercises, learn to see in a fresh, unselfconscious way that builds confidence and allows students to create surprisingly realistic drawings. Course involves sequential learning, instructor approval required if you register after course start date. Supply List is available online. Fee: \$169

Item W9468	L. Wallat	NORTH
5 Wednesdays	Feb 21 - Mar 21	6:00 - 9:00pm

#### Cartoon Illustration

Become the cartoonist you always dreamed of, for comic books, comic strips, or to design characters for videogames or animations. In this introduction to the art of cartooning, learn how to convey emotion, motion, and more through cartoons, letter for word bubbles, storyboard, and publish your comics. Leave the class with a cartooning portfolio and a showcase piece. Basic drawing skills recommended. See website for supply list. Fee: \$289

Item W9472	E. Price	NORTH
8 Thursdays	Jan 25 - Mar 22	6:00 - 9:00pm
<i>Bellevue College NetID required before the last two sessions of the course.</i>		

#### Drawing Basics

Designed for non-artists who want a fun, informative and stress-free introduction to drawing. Learn basic sketching and drawing techniques including the use of line, space and perspective. Discover the secrets of shading solid forms while learning to draw common still lifes. Class is a combination of lecture, demonstration and one-on-one feedback. Visit our website for what to bring to first class and more information. Fee: \$269

Item W9486	C. Cooney-Wickett	NORTH
8 Fridays	Jan 12 - Mar 2	10:00am - 1:00pm

#### Drawing: Beginning

Do you want to develop fundamental drawing skills and learn how to render realistic drawings? This class will introduce the use of perspective, line, mass, value, tone, light, form and composition. Using observation and working from still-lives, practice these concepts while exploring various drawing media, including charcoal and graphite.

No prerequisites. Returning students welcome. See website for supply list. Fee: \$299

Item W9479 L. Kelly Lyles MAIN  
9 Mondays Jan 8 - Mar 19 7:00 - 10:00pm  
NO CLASS ON 1/15 & 2/19

Item W9482 C. Cooney-Wickett NORTH  
9 Saturdays Jan 20 - Mar 17 9:30am - 12:30pm

## Portraiture: Beginning and Continuing

Learn the anatomy of the skull and facial muscles, the correct way of reproducing facial expressions and the composition of the portrait. Working from models of different ages, genders, and ethnicities, you will do portraits in charcoal, graphite conte crayon or ink. Bring a 14" x 17" sketch book, vine charcoal or soft pencil and a kneaded eraser to the first class. Basic drawing skills recommended. Tuition includes model fee for all sessions. See website for supply list. Fee: \$345

Item W9485 C. Cooney-Wickett NORTH  
8 Thursdays Jan 11 - Mar 8 6:30 - 9:30pm  
NO CLASS ON 2/8

## PAINTING

### Abstract Watercolors

Learn how to combine the expressive, personal, exciting vision of Abstraction with the smaller, particular, intimate beauty of Watercolors. Discover basic elements of design, the language of color and harmony, line, shape and space, to create a compelling painting. Instructor will email supply list before class starts. Fee: \$225

Item W9475 V. Paquette NORTH  
10 Wednesdays Jan 3 - Mar 7 10:00am - 12:00pm

### Acrylics: Beginning

A great intro class for beginners or as a re-examination of fundamentals for any skill level. Working from still life, we'll study composition, basic color theory and mixing, and more. Gain experience with different types of paint application. Explore examples of classic and contemporary painting to promote discussion of theory and technique. See website for supply list and prerequisites. Fee: \$265

Item W9483 C. Cooney-Wickett NORTH  
8 Saturdays Jan 20 - Mar 10 1:00 - 4:00pm

### Acrylics: Continuing

Take your acrylic skills to the next level and get the most out of your painting. Explore many techniques used to create a rich and unique painting. Visit our website for more information on what to bring to class and more. Course price includes model fee. Fee: \$339

Item W9451 F. Lisaius NORTH  
10 Wednesdays Jan 3 - Mar 7 1:00 - 4:00pm

## Chinese Sumi Painting and Calligraphy (Beg/Cont)

Don't paint just what you see, paint what you feel. Painting with soul is the fundamental idea of sumi painting and calligraphy. Study the philosophy and theory of this art form and learn the brief history of

seal carving and usage of chops. Learn skills and techniques of sumi floral and landscape paintings and calligraphy through demos and hands-on individual instruction. Instructor is a well-known Chinese calligrapher and painter. Bring supplies to first class. See website for supply list. Fee: \$139

Item W9478 Y. Zhu NORTH  
5 Tuesdays Jan 9 - Feb 6 6:30 - 9:00pm

## Creative Mixed Media

Experiment with fluid acrylics, ink, watercolor, fiber paper, pastels and more by creating mixed media pieces with symbolic meaning or representational. Focus will be on using and applying a variety of media and principles to create strong and interesting compositions. Properties of color and development of a personal color palette will be encouraged. Subject matter will be loosely based on natural and manmade forms. Basic supplies provided. Fee: \$345

Item W9494 G. Gregory NORTH  
10 Thursdays Jan 4 - Mar 15 9:30am - 12:30pm  
NO CLASS ON 2/8

## Introduction to Encaustic

Encaustic painting is an ancient medium of beeswax, damar resin, and pigment recognized for its resplendent surface and rich color. Gain a thorough set of skills, as well as tips for setting up a safe studio space at home! No prior experience required. Tuition includes studio and basic material fees. See website for your supply list. Register early! Fee: \$279

Item W9493 J. Griffin MAIN

## Encaustic and Photography

Combine your interest in Encaustic art and photography in this class! Learn how to layer photographic imagery into your encaustic works using a variety of techniques. Practical tips for painting, drawing and staining atop the resulting photographic transfers will be covered along with guidance for preserving your completed artworks. Tuition includes studio and basic material fees. See website for your supply list. Prerequisite: Introduction to Encaustic Prerequisite: Introduction to Encaustic Fee: \$279

Item W9492 J. Griffin MAIN  
2 sessions SSu Feb 24 - Feb 25 10:00am - 4:00pm

## Encaustic and the Book

In this workshop you will explore the concept of 'the book' using an accordion format, finishing the work in encaustic. You will learn about the application and heating of wax on this dimensional form as well as incising, collaging and transferring onto the waxen surface to create your own book. Tuition includes studio and basic material fees. See website for Supply List. Prerequisite: Intro to Encaustic Fee: \$175

Item W9469 D. Kapoor MAIN  
1 Saturdays Feb 3 - Feb 3 10:00am - 4:00pm  
30-minute lunch break included.

## Figure Painting in Oils **NEW!**

Painting the figure is a great way to develop good drawing and painting skills. This class covers both oil painting and gouache, a water-based opaque medium that is often used for more precise work. We'll start with loose sketches from photos of various models projected on the screen. We'll work on body parts (arms, torso, feet and hands) then build up to more complete forms, using both mediums. This is an advanced figure class, but beginners are welcome and encouraged to join. Learn several techniques in both mediums, with the emphasis on realism but also creativity and design. Final 2 classes will have live models and the instructor will work directly with you and do demonstrations along the way. Tuition includes model fee. Fee: \$355

Item W9477 P. Howe NORTH  
10 Wednesdays Jan 3 - Mar 7 6:30 - 9:30pm

## Pastels for Landscape and Figures

Working with pastels is unlike any other medium. The color you put down is direct and immediate. In this class, you will learn fun ways to apply pastel over various paper stocks, sandpaper, canson, even a gouache base. You'll work in line, overlay color, learn how and when to fix your drawing and how to lay one color over another to achieve subtle, realistic effects. This class is fun and relaxed, designed for beginners or intermediate students. You'll work on several pieces, landscapes and figures. Fee: \$335.

Item W9481 P. Howe NORTH Campus, V105H  
10 Tuesdays Jan 2 - Mar 6 6:30 - 9:30pm

## Oil Painting: Beginning and Continuing

Working from still life, learn fundamental oil painting techniques with a focus on composition & color theory, including basic color mixing and juxtaposition. Explore different types of paint application and much more. Assignments are carefully designed to be simple to initiate, and broad enough to elaborate. Each class includes demonstrations, painting time, and individual interaction with the instructor. See website for supply list and more information. Fee: \$269

Item W9484 C. Cooney-Wickett NORTH  
8 Tuesdays Jan 9 - Feb 27 6:30 - 9:30pm

## Painting and Abstraction

Discover the art of Modern life: Learn a new way of thinking and seeing, and create dynamic Abstract paintings. Express your inner self in your work with this more personal and expressive mode of painting. This introductory class is designed to explore the basics of style and structure, and the simple concepts behind the actions, working with acrylics and mixed media. Instructor will email the supply list to you before class starts. Fee: \$225

Item W9476 V. Paquette NORTH

THURSDAY AND TUESDAY CLASSES MEET AT NORTH CAMPUS, 6:00 PM - 9:30 PM; ONE WEEKEND FIELD TRIP TO A PHOTOGRAPHY STUDIO ON THE WEEKEND, DATE/TIME TBA IN CLASS.

### DP - Photography Portfolio Review

Do you have a large collection of photography and feel uncertain about which ones, and even how many, to select to showcase your talent? Explore the art of selecting with the guidance of instructors and a panel of industry professionals. Learn about presentation options for your selected images, from traditional prints, to bound collections, to online portfolios. Bring 5 photographs on a flash drive or DVD to share as part of your introduction in the first class. Fee: \$299

Item W9466 R. Pfortner NORTH  
5 Wednesdays Feb 7 - Mar 21 6:00 - 9:00pm  
NO CLASS ON FEB 14 AND MAR 14.

### DP - Telling Better Stories

Why is a picture "worth a thousand words?" Because great photographs tell stories. In doing so they make a connection, evoke an emotion, kindle a memory, show a relationship, and provoke a response in the viewer. But to tell a story with your photograph, you must have a strong concept of just what you want to say combined with strong composition. In this class, explore how to share your story through a single image as well as through sequences. You will learn how to harness the narrative power of photographs, from planning and previsualizing to selecting what not to include and

sequencing. Learn about creating stories you can sell to magazines and to create books of your own like after you travel. For all experience levels using any digital camera. Bring 5 of your photographs that you feel tell a story singly or in combination to the first class to share as part of your introduction. Fee: \$275

Item W9465 R. Pfortner NORTH  
5 Mondays Feb 5 - Mar 19 6:00 - 9:00pm  
NO CLASS ON FEB 19 AND MAR 12.

## DP - Digital Photography I

Get the photos you want by learning features and controls of your digital camera. Add an introduction to composition and light and you've got a magical art form. This course is divided into two units: digital camera operation and photographic fundamentals. Weekly assignments integrated with class discussions give a solid foundation in digital photography. Topics include: exposure modes, aperture, shutter speed, flash, histograms and exposure compensation, white balance and other in-camera overrides. Bring your camera and instruction manual.

### The Magic of Writing for Children

Whether you're a beginner, or have already published; whether you want to write for preschoolers, teens, or in-between, this is the class for you. We'll explore what makes a book "work" for each age group in terms of word choice, characterization, theme, and structure. Plus, you'll have the chance to get feedback in a safe environment from a seasoned author. Fee: \$299

Item W9487 K. Bond NORTH  
10 Wednesdays Jan 10 - Mar 21 6:00pm - 8:30pm  
NO CLASS ON FEB 14

### Wordcraft

**NEW!**

"...when words are tuned to their highest ability... it is possible to feel...language clicking into place."  
—Mark Doty, THE ART OF DESCRIPTION

Whether you're a beginning or an advanced writer, this class will bring you back to the foundation of craft—the specific words that make up your paragraphs and stanzas. Wake up your descriptions through enhanced attention. Discover unexpected images through "meaning networks." Revitalize the familiar by removing its usual scaffolding. The result will be work that is robust and vibrant—as much a pleasure to read as it is to create. All writing, from fiction to poetry to song lyrics, is welcome, as is that idea that's just beginning to percolate. Class time includes lecture, discussion, writing, and critique. Required text: The Art of Description: World into Word, ISBN-13: 978-1555975630. Fee: \$339

Item W9488 K. Bond NORTH

### Writing Family Stories for **NEW!** Your Children and Grandchildren

Each of us holds a story deep in our heart that we would like to share with our children and grandchildren. How do we pass these family stories on to the next generation, so that our stories stand out in the modern world's data-stream bombardment aimed at our children? This course focuses on bringing meaningful stories to life for a new generation. Come prepared to write and to learn how to transform your heartfelt stories into ones that children will remember forever. We will draft our stories, share them with the class, and come up with a plan for creating a picture book or even a middle grade novel for the young children in our lives. Fee: \$175

He has been ordained as a Buddhist monk for over 20 years, and is a 1992 graduate of Harvard University. He shows an inspiring example of a modern day western practitioner. Previous to his move to Seattle in 2007, Gen Khedrub served for 10 years as the Resident Teacher at Vajrayana Buddhist Center in Chicago. Gen Khedrub now teaches regularly throughout the Seattle area, and has also taught special weekend events in San Francisco, Los Angeles, San Diego, and Dallas.

# TELOS

*Telos means "fulfillment" in Greek. The telos of an acorn is an oak tree.*

*This educational program is aimed at retired people who wish to participate in opportunities and challenges for continued learning, personal growth, and new friendships. A wide variety of cultural enrichment classes, designed to fit the lifestyles and interests of retirees, are offered quarterly and are conducted in a relaxed atmosphere. The emphasis of TELOS is on learning, growth, and fun. TELOS classes are non-credit and non-graded. They meet once a week during the day in the North Campus building, which has convenient parking. Most classes are 90 minutes long and meet for 8 weeks.*

*You can read expanded descriptions of TELOS classes and learn about the instructors by visiting our website, [www.BCconted.com/retiree-programs](http://www.BCconted.com/retiree-programs).*

## TELOS - TSO

### "COFFEE & WISDOM" MONTHLY PRESENTATIONS

Beginning Spring Quarter 2016, on behalf of our TELOS Student Organization, a \$5 fee will be added to student registration each quarter. For more information, please go to TSO website: <http://studentweb.bellevuecollege.edu/telos-tso> or send email to TSO Council President, Edie Heppler: [edieheppler@gmail.com](mailto:edieheppler@gmail.com)

## MONDAYS

### TELOS - Egyptian Voices from the Past: The Middle Kingdom

The Middle Kingdom was a time of prosperity, peace and long-reigning kings, but also a time in which the role and status of the king was diminished and the Egyptians were forced to become more cognizant of their neighbors. The language reached its highpoint and literature flourished as did arts and crafts, and sculpture. This course will review the Classic Period of Egyptian history by looking at the archaeological evidence found in architecture, literature and art. Fee: \$79

Item W8045 C. Smith NORTH  
8 Mondays Jan 8 - Feb 12 10:00 - noon

### TELOS - Stories from the Eastside's Past

We will chronicle the development of our local communities from the Native American populations, logging and mining industries, to the corporation of the four major Eastside cities: Bellevue, Redmond, Kirkland and Issaquah. Included will be the effects of the lowering of Lake Washington in 1916 on the economic growth of the area. Fee: \$79

Item W8047 J. Morton NORTH  
8 Mondays Jan 8 - Feb 12 10:00 - 11:30am

### TELOS - Fun with Computer-based Genealogy

Use online resources to research your ancestral families. Learn how to use Ancestry, Family Search and Google to locate and access genealogical information and improve the effectiveness of your surname searches. Utilize censuses and city directories to find your ancestors. Find subscription databases at local libraries that can be accessed from home and more. Fee: \$79

Item W8048 R. Barnes NORTH  
8 Mondays Jan 8 - Feb 12 10:00 - 11:30am

### TELOS - Baroque Art

This course will focus on painting, sculpture and architecture from the Early to Late Baroque period. We will examine the first "superstars" of the art world, such as Caravaggio, Rembrandt, Velázquez, Rubens, and Bernini. This was a tumultuous period, and we will see how the arts helped re-establish the global power of Roman Catholic Church during the Reformation -- and just how significant it was for artists that followed. Fee: \$79

Item W8009 M. Sarani NORTH  
8 Tuesdays Jan 2 - Feb 20 10:00 - 11:30am

### TELOS - The Age of Trump 2

Part lecture, part discussion, this course uses the analytical techniques of political science and history to understand Donald Trump's presidential actions and their impact. We will go beyond the headlines to examine what may be the most far-reaching developments in American society since World War II. Fee: \$79

Item W8008 R. Young NORTH  
8 Tuesdays Jan 2 - Feb 20 10:00 - 11:30am

### TELOS - Art Workshop **NEW!**

Intended for those who have learned the fundamentals of drawing OR watercolor and want to take them to the next level. Students may choose to follow the weekly lesson, or to continue working on a piece of their choosing. The flexible structure of this class will provide a relaxed and fun environment to fuel your

artistic expression. Bring your watercolor paints, paper and supplies to the first class. Tuition includes \$10 materials fee. Fee: \$79

Item W8010 S. Almgren NORTH  
8 Tuesdays Jan 2 - Feb 20 10:00 - 11:30am

### TELOS - The American Civil War Homefront

We will see how both Northern and Southern governmental agencies, businesses, and local civilians contended with everyday life while supporting their troops. New organizations and, technology arose, local fund-raising increased creatively, and women emerged in new roles. The politics and economics of cotton spread globally. At home, visual expressions of loyalty, mourning, and reconciliation all involved textiles. Fee: \$79

Item W8030 A. Rosenberg NORTH  
8 Tuesdays Jan 2 - Feb 20 2:00 - 3:30pm

### TELOS - Creative Writing

Whether you are a beginning or experienced writer, whether your interest is in memoir writing, fiction or non-fiction, you will benefit from this class. Exchange of ideas and opinions is an important tool in the development of your writing skills. Priming the pump uncovers a myriad of memories and touches the creative center in all of us. Since the class involves reading and critiquing, each section must be limited to 12 students. Fee: \$79

Item W8011 D. Toppen NORTH  
8 Tuesdays Jan 2 - Feb 20 10:00am - 12:00pm

Item W8015 D. Toppen NORTH  
8 Tuesdays Jan 2 - Feb 20 12:30 - 2:30pm

### TELOS - Buddhist Art of the Western Himalayas **NEW!**

The Western Himalayas, including India, Nepal and Tibet, is rich in its Buddhist traditions and religion and is also a treasure trove with regard to art and culture. We will study the influence of Buddhism on the artistic heritage of the predominant Buddhist regions of NW India (Spiti Valley, Ladakh, and Kashmir), including jewelry, paintings, and sculpture, and explore the symbolism and influence of Buddhism on these art forms.

Fee: \$79

Item W8039 S. Krishnamoorthy NORTH  
8 Tuesdays Jan 2 - Feb 20 noon - 1:30pm

### TELOS - American Comedy and Humor

We will sample widely, looking at such essential figures as Charlie Chaplin, Groucho Marx, Laurel and Hardy, Jack Benny, Bob Hope, Sid Caesar, Woody Allen, Mel Brooks, Bob Newhart, Lenny Bruce, Joan Rivers, Carol Burnett, Phyllis Diller, Richard Pryor, Chris Rock as well as landmark TV shows. Explore what social and cultural factors have influenced American tastes in comedy. What recent factors have emerged, and what influence might we expect from them? Fee: \$79

Item W8013 J. Hurwitz NORTH  
8 Tuesdays Jan 2 - Feb 20 noon - 1:30pm

### TELOS - Design Thinking **NEW!**

Design, the "D" in TED Talks, was defined by Herbert Simon as "changing existing situations to preferred ones." Design thinking is a human-centered approach to problem solving, from the complex "wicked problems" of social life, environment and society, to creating innovative technology, or for designing one's own life. We can all learn something about design--by doing, and through feedback iterating real world ideas. Fee: \$79

Item W8014 C. Bradley NORTH  
8 Tuesdays Jan 2 - Feb 20 noon - 1:30pm

### TELOS - Geomorphology - The Study of Landforms

The surface of the Earth is modified by a combination of surface processes that sculpt landscapes, and geologic processes that cause tectonic uplift and subsidence.

Fee: \$79

Item W8004 D. Charnley NORTH  
4 Tuesdays Jan 2 - Jan 23 noon - 2:00pm

### TELOS - Beowulf **NEW!**

The epic poem, Beowulf, is one of the foundation works of English literature. It is thought to have been written around the 7th century in Old English. Beowulf tells the tale of an old Norse hero. It is full of courage, duty and honor on the one hand, and doom, foreboding, betrayal, and transience on the other. It has monsters, dragons and superhuman feats of daring-do. Beowulf has continued to delight readers with its exciting exploits and beautiful poetry for centuries. We will read Seamus Heaney's magnificent and poetic translation published in 2000. Fee: \$79

Item W8012 L. Dillaway NORTH  
8 Tuesdays Jan 2 - Feb 20 noon - 1:30pm

### TELOS - The Crisis in American Health Care

The current crisis in American health care arises from historical uncertainty over whether universal access to care is a right or a privilege. This derives from Constitutional silence in the matter, as well as our commitment to free markets and opposition to government interference. This course will examine the historical health care antecedents leading up to the Affordable Care Act, examine its shortcomings and suggest remedies. Fee: \$79

Item W8005 J. Maynard NORTH  
8 Tuesdays Jan 2 - Feb 20 noon - 1:30pm

### TELOS - Introduction to Acrylics

Intended focus of this class is fun through art-making, and exploration of contemporary approaches to acrylic painting via new methods. Encouraging students to explore individual passions for art and art history, while helping to build a stronger communal support. Students will be engaging in some basic drawing and painting with acrylic colors. Any level of skill is welcomed. Fee: \$79

## Are you bilingual? Turn your language skills into a career.

The Bellevue College Translation & Interpretation Certificate Program offers the most comprehensive and rigorous professional training available in the Northwest.

- Instructors are experienced, practicing professionals.
- Courses emphasize practical, hands-on job skills.
- Classes fit your schedule—just one or two evenings a week.
- Certificate meets prerequisite requirements for the ATA exam

## Make your trip more enriching with a language class or travel class

Knowing about a place and speaking a few simple phrases can open up your travel experience to the people and the culture of the place you visit.

## Meet Blaise Mitsutama, LMS Administrator & Instructional Designer

**W**e are excited to introduce a new member of the Continuing Education staff, Blaise Mitsutama. You might recognize Blaise if you've taken one of her classes in the Technical Writing program or attended the open house. She is new to our staff, but not entirely new to Continuing Education.

Blaise has been an instructor for the Technical Writing program, and recently started working as an LMS Administrator and Instructional Designer. Her position supports our programs at Continuing Education by finding new ways to better deliver our offerings for all students. Learn more about Blaise Mitsutama in this Q&A:

### Why did you choose to work at Bellevue College Continuing Education?

Lifelong learning has been described as: ... [T]he "ongoing, voluntary, and self-motivated" pursuit of knowledge for either personal or professional reasons. Therefore, it not only enhances social inclusion, active citizenship, and personal development, but also self-sustainability, as well as competitiveness and employability.

Bellevue College Continuing Education is a community of lifelong learners. This applies as much to faculty and staff as it does to our students. At Continuing Education, I feel there is a relentless push to be excellent, effective, and open to new ideas and opportunities. This is demonstrated in its commitment to incorporate eLearning best practices as well as innovative programs in augmented and virtual reality, e-com-

merce, healthcare solutions, translation and interpretation, and to learners from teens to seniors. Continuing Education is where I believe my contributions will have impact and make a difference. (Lifelong Learning, Wikipedia)

### What is your educational background and experience?

I graduated from the University of Southern California, Los Angeles with a BA in Social Studies (emphasis in Anthropology and International Relations). One of the best learning experiences I had in college was being an exchange student in Japan for a year. Each student lived with a Japanese host family, and attended classes (in English) at Waseda University. For most of my life I have been an autodidact, delving into whatever field of study draws my interest. I mastered microcomputers and database programming before courses in these subjects were included in college curricula, and have been fascinated and engaged in technology ever since.

In 2014, I started teaching technical writing at Bellevue College Continuing Education, which led to my collaborating with another instructional designer to revamp the Technical Writing Inclusive online course. As a neophyte instructor, I discovered workshops available through Faculty Commons to actively develop teaching skills, classroom management, use of educational technology, and accessible learning. In a relatively short time, I was developing and/or delivering workshops on accessible technologies, copyright, and how to use Canvas. In 2016, I worked on a pilot project to develop template-based online Direct Transfer Agreement courses, and subsequently took on the role of facilitator for the Universal Design for Learning (UDL) Faculty Cohort.

### What are you most excited about in your new position as LMS Administrator & Instructional Designer?

Education is changing. Not only are there new models and methods, there is also greater competition. MOOCs, online training companies, bootcamp-style schools, developments in education technologies, and a shift in focus from traditional degrees to competency-based learning are siphoning students away from brick-and-mortar colleges and universities. In addition, increasing traffic, tighter schedules, and personal

commitments make it challenging, if not impossible, for people to take advantage of classroom training for professional development, job search, or career change.

As the Interim LMS Administrator/eLearning Instructional Designer, I'm excited to expand our online and hybrid offerings, and to create more options for more students to learn at Continuing Education.

### What opportunities do you see for Continuing Education in your area?

Online and hybrid competency-based learning is a huge opportunity for Continuing Education. We have a lot of content that is currently classroom-based that can be expanded to a wider audience, if it is made available online. Also, it isn't enough to simply add course content to Canvas. Instructors will need training and support to navigate online and learn how to engage students they can't see and who are connected to the course asynchronously.

### How do you plan to best serve the Bellevue College Continuing Education students and community?

- I will have served Continuing Education students, instructors, and community by answering the following questions:
- How do we prioritize the courses that should be online or hybrid?
- How do we design courses to be accessible, engaging, and support student success?
- How do we create and implement processes, resources, and tools that give instructors and students the information they need in and about online and hybrid courses?
- How do we make information and resources for online courses discoverable and accessible?
- What can we do better?

### What does lifelong learning mean to you? And why?

I included a general definition of lifelong learning in my first comment. But more personally, lifelong learning means never losing the childlike curiosity that sees the world as a place of endless possibilities, fascination, and discovery.

### Registration Fee

A non-refundable Registration Fee of \$10 per quarter will be charged in addition to course fees on all registrations starting on **DEC 26**. This fee will be waived if you register for classes BEFORE this date (and do not cancel the class).

### Course Prerequisites

Many courses list "Prerequisites," which are considered to be basic skills and expected knowledge prior to taking the class. Instructors will assume a readiness for the class materials and will not use class time to discuss prerequisite material. **Always check the course description on our website for textbook information and complete course descriptions.**

### Withdrawals & Refunds for Non-credit Classes

Some courses have withdrawal & refund policies that differ from this policy; these are noted in the course descriptions.

You may request a refund by phone at (425) 564-2263 or in person at North Campus. A \$10.00 processing fee is assessed on student-initiated refunds. Online classes:

- Flexible Start-Date Classes: No refund will be issued once the course has been accessed. A 100% refund will be made if Bellevue College cancels the course.
- Group Start and Hybrid Classes: Follow the in-person class policy listed below.

In-person classes: A refund (minus the processing fee) will be made if you withdraw at least 3 working days before the class start date. No refund will be made after that date. There are no partial refunds. A 100% refund will be made if Bellevue College cancels the class. The deadlines for dropping a class during weeks without holidays are:

If class starts:	Student must call to change before:
Monday . . . . .	5 pm previous Wednesday
Tuesday . . . . .	5 pm previous Thursday
Wednesday . . . . .	5 pm previous Friday
Thursday . . . . .	5 pm previous Monday
Friday - Sunday . . . . .	5 pm previous Tuesday

### Bus Information

Bellevue College campuses are served by Metro and Sound Transit bus routes. Please contact Metro (206) 553-3000 or visit <http://metro.kingcounty.gov> or Sound Transit (800) 201-4900 [www.soundtransit.org](http://www.soundtransit.org)

### Parking

Parking at the Bellevue College North Campus and satellite locations is free of charge. Please see <http://BCconted.com/publicsafety/parking.asp> for Main Campus parking information and fees.

### 5 Easy Ways to Register

Registration for Continuing Education classes takes place at any time after the schedule is available. Your Social Security Number is confidential and, under federal law, it is protected and will not be disclosed to unauthorized parties. Disclosure may be authorized for the purposes of state and federal financial aid, American Opportunity Tax Credit & Lifetime Learning tax credits, academic transcripts, or accountability research.

#### 1 Online Registration at [www.BCconted.com](http://www.BCconted.com)

Click on "Classes" on the top menu. Choose your desired classes, and follow our easy-to-use wizard to enter all the required information. If the class is full, you will be notified by e-mail of your waitlist position. Please add Bellevue College to your "safe sender" list to ensure prompt e-mail delivery from the college.

#### 2 Phone-In Registration

Call Continuing Education Registration Services at (425) 564-2263. Please have your student I.D. number, Visa or MasterCard number and expiration date, and course item number ready. During peak registration times, web and FAX registrations are quick and safe alternatives.

#### 3 In Person registration North Campus

14673 NE 29th Place, Bellevue, WA 98007

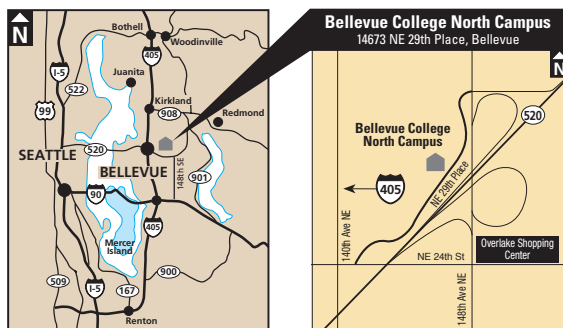

Bellevue College registration services closed: 12/5, 12/23, 12/26, 1/2, 1/16, 2/9, 2/20, 3/7.

#### 4 Fax-In Registration

Complete all the information on the form on page 47 including your Visa or MasterCard number and expiration date. Fax it to (425) 564-3113. Faxes are received in a secure site within Customer Service.

#### 5 Mail-In Registration

Complete all the information on the form on page 46 and mail it to the address on the form. Include your check or money order payable to Bellevue College, or your Visa or MasterCard number and expiration date. Mail-in registrations are typically processed within one hour of daily mail delivery.

## Change Your Future With These New Tech Offerings

### PowerShell Stack

Learn to harness Microsoft Windows' integrated scripting language to automate routine and complex administrative tasks. Get started with the basics of the language and progress to creating sophisticated scripts that you can easily share with other administrators.

### Programming with Python Stack

Develop programs in Python, a programming language whose design philosophy emphasizes code readability. Learn types, operators, variables, IF statements, tuples, lists and dictionaries.

### iOS Bootcamp

Bellevue College is offering an evening and weekend 60 hour iOS development. The goal of the iOS Development Bootcamp is to transform you into an iOS developer. You will learn how to think like an iOS developer and come to understand Swift and Xcode, by building iOS
